PERFORMANCE & FITNESS

NC17 ABDUCTORS

THE KEY POINTS OF TANNAC RANGE

DURABILITY

Mechano-welded frame with 3,2 mm tubes, steel rear stack guard, hauling straps at very high strength. TANNAC machines are designed for intensive use.

STRENGTH

TANNAC machines, like all our ranges, are the result of our knowledge developed in high performance sport. They respond to high requirements in terms of biomechanics. Loads are adjustable to match the most demanding user's needs.

CHOICE

Optional frame colour (grey as standard), upholstery (standard black), logo embroidery are available

KEY POINTS

NC17 - ABDUCTORS

SWIVEL LEG PADS

The swiveling leg pads provide users with optimal comfort. They perfectly match the shape of the legs, thanks to the high-density foam, also used on seats and rollers.

GRIP HANDLES

The grab handles provide stability to the user while performing the exercise. Their ergonomic shape allows a safe handling and guarantees good posture.

TECHNICAL DATA

CHARACTERISTICS	DESCRIPTION
Length	135 cm
Width	100 cm
Height	145 cm
Weight	205 kg
Standard load	60 kg
Maxi. load	120 kg
Maxi user weight	150 kg
Frame	Oval steel frame - 3,5mm/average
Stack guard	Rear
Upholstery	Black (other colours optional)
Load transmission	High resistance belting (4,5 tonnes)
Warranty	5 years on metal frame (excl. paint, upholstery and parts subject to wear)

STANDARD FRAME COLOUR	OPTIONAL FRAME COLOUR
	

DESCRIPTION

KNOW-HOW

WELDING

At the forefront of technology, we have a semi-automatic eight-axis welding robot. Its size and quality allow us to assemble all the sub-assemblies of the machines and ensure real quality.

The more specific parts are welded by an experienced team and then individually controlled.

PAINT

During the painting phase, our painters follow three key steps. Initially, they clean the parts apply a layer of antirust and protection. Then, paint is added by this process offers outstanding aesthetic quality as well as mechanical resistance electrostatic powdering.

ENVIRONMENTAL PROTECTION

We use recyclable 90% products. Our chassis are made of 100% steel and delivered by Austrian suppliers WUPPERMANN which guarantees character “infinitely recyclable of its steels” by encouraging the use of steel from the electrical industry to reduce its carbon footprint.

EN957 STANDARDS

All LAROQ machines are designed and manufactured according to the EN957 standards. They have been approved by an independent organization, COFRAC accredited. Tests are performed in the most demanding conditions (maximum displacement area, maximum stress, stability)

CUSTOMIZATION

EMBROIDERY

Made in France, we are able to customize your upholstery with your own embroidered paint. The ability to customize frame colors, upholstery colors, marking... you can completely customize your equipment.

SADDLERIES AND COLOR

The seats and cushions are entirely cut and hand-sewn in our upholstery workshop. We select the best manufacturers of natural or synthetic leathers to offer a wide range of colors and textures.

We place great importance on the quality of materials used in manufacturing and the details.
