PERFORMANCE & FITNESS

NC26 45° LEG PRESS

THE KEY POINTS OF TANNAC RANGE

DURABILITY

Mechano-welded frame with 3,2 mm tubes, steel rear stack guard, hauling straps at very high strength. TANNAC machines are designed for intensive use.

STRENGTH

TANNAC machines, like all our ranges, are the result of our knowledge developed in high performance sport. They respond to high requirements in terms of biomechanics. Loads are adjustable to match the most demanding user's needs.

CHOICE

Optional frame colour (grey as standard), upholstery (standard black), logo embroidery are available

LES POINTS FORTS

NC26 – PRESSE À JAMBES 45°

ADJUSTABLE BACKREST

The adjustable backrest of the 45 ° Leg Press offers optimal comfort to users thanks to its anatomical shape and high-density foam. In addition, the backrest adjustment makes it possible to adapt to different types of body types.

WEIGHT PLATE HOLDERS Ø51MM

La NC26 est une machine à charge guidée, les utilisateurs peuvent pousser jusqu'à 240 kg. Cependant elle offre la possibilité aux pratiquants d'augmenter sa charge maximale grâce aux épis supports de disque Ø51mm pouvant supporter jusqu'à 140 kg supplémentaire

Users can push up to 240 kg load when using the selectorised weight stack. The plate holders located on each side of the foot plate allows to push another 140kg

LOAD LOCKING UPPER STOP

La Presse à Jambes 45° est équipée d'une butée haute bloque-charge, ce qui va permettre à l'utilisateur de sécuriser son mouvement de départ afin d'éviter un traumatisme du groupe musculaire sollicité. De plus, le levier est accessible depuis la position assise.

Load locking system allows the user to secure his starting movement to avoid trauma to the muscle group involved. The operating lever is accessible from the seated position.

TECHNICAL DATA

CHARACTERISTICS	DESCRIPTION
Length	200 cm
Width	130 cm
Height	130 cm
Weight	400 kg
Standard load	140 kg
Maxi. load	240 kg
Maxi user weight	150 kg
Plate holders	Ø51mm
Frame	Oval steel frame - 3,5mm/average
Stack guard	Rear
Upholstery	Black (other colours optional)
Load transmission	High resistance belting (4,5 tonnes)
Warranty	5 years on metal frame (excl. paint, upholstery and parts subject to wear)

STANDARD FRAME COLOUR	OPTIONAL FRAME COLOUR
	

DESCRIPTION DÉTAILLÉE

KNOW-HOW

WELDING

At the forefront of technology, we have a semi-automatic eight-axis welding robot. Its size and quality allow us to assemble all the sub-assemblies of the machines and ensure real quality.

The more specific parts are welded by an experienced team and then individually controlled.

PAINT

During the painting phase, our painters follow three key steps. Initially, they clean the parts apply a layer of antirust and protection. Then, paint is added by this process offers outstanding aesthetic quality as well as mechanical resistance electrostatic powdering.

ENVIRONMENTAL PROTECTION

We use recyclable 90% products. Our chassis are made of 100% steel and delivered by Austrian suppliers WUPPERMANN which guarantees character “infinitely recyclable of its steels” by encouraging the use of steel from the electrical industry to reduce its carbon footprint.

EN957 STANDARDS

All LAROQ machines are designed and manufactured according to the EN957 standards. They have been approved by an independent organization, COFRAC accredited. Tests are performed in the most demanding conditions (maximum displacement area, maximum stress, stability)

CUSTOMIZATION

EMBROIDERY

Made in France, we are able to customize your upholstery with your own embroidered paint. The ability to customize frame colors, upholstery colors, marking... you can completely customize your equipment.

SADDLIERIES AND COLOR

The seats and cushions are entirely cut and hand-sewn in our upholstery workshop. We select the best manufacturers of natural or synthetic leathers to offer a wide range of colors and textures.

We place great importance on the quality of materials used in manufacturing and the details.
