PERFORMANCE & FITNESS

NC43 CONVERGENT LYING CHEST PRESS

THE KEY POINTS OF TANNAC RANGE

DURABILITY

Mechano-welded frame with 3,2 mm tubes, steel rear stack guard, hauling straps at very high strength. TANNAC machines are designed for intensive use.

STRENGTH

TANNAC machines, like all our ranges, are the result of our knowledge developed in high performance sport. They respond to high requirements in terms of biomechanics. Loads are adjustable to match the most demanding user's needs.

CHOICE

Optional frame colour (grey as standard), upholstery (standard black), logo embroidery are available

KEY POINTS

NC43 – CONVERGENT LYING CHEST PRESS

ADJUSTABLE ARM POSITION

The adjustment of the arms of LAROQ CONVERGENT LYING CHEST PRESS offers different ranges of motion and guarantees a correct posture during the training.

INDEPENDENT ARMS

Independent arms allow simultaneous or alternate training.

The ergonomic design of the handles allows neutral or pronation position of the hands.

FOOT REST

The non-slip footrest provides safety for the user. This material offers total grip, allowing maximum concentration on the movement in all serenity.

TECHNICAL DATA

| CHARACTERISTICS | DESCRIPTION |
|-------------------|--|
| Length | 120 cm |
| Width | 240 cm |
| Height | 130 cm |
| Weight | 180 kg |
| Standard load | 80 kg |
| Maxi. load | 140 kg |
| Maxi user weight | 150 kg |
| Frame | Oval steel frame - 3,5mm/average |
| Stack guard | Rear |
| Upholstery | Black (other colours optional) |
| Load transmission | High resistance belting (4,5 tonnes) |
| Warranty | 5 years on metal frame (excl. paint, upholstery and parts subject to wear) |

| STANDARD FRAME COLOUR | OPTIONAL FRAME COLOUR |
|---|--|
|  |    |

DESCRIPTION DÉTAILLÉE

LAROC

KNOW-HOW

WELDING

At the forefront of technology, we have a semi-automatic eight-axis welding robot. Its size and quality allow us to assemble all the sub-assemblies of the machines and ensure real quality.

The more specific parts are welded by an experienced team and then individually controlled.

PAINT

During the painting phase, our painters follow three key steps. Initially, they clean the parts apply a layer of antirust and protection. Then, paint is added by this process offers outstanding aesthetic quality as well as mechanical resistance electrostatic powdering.

ENVIRONMENTAL PROTECTION

We use recyclable 90% products. Our chassis are made of 100% steel and delivered by Austrian suppliers WUPPERMANN which guarantees character “infinitely recyclable of its steels” by encouraging the use of steel from the electrical industry to reduce its carbon footprint.

EN957 STANDARDS

All LAROQ machines are designed and manufactured according to the EN957 standards. They have been approved by an independent organization, COFRAC accredited. Tests are performed in the most demanding conditions (maximum displacement area, maximum stress, stability)

CUSTOMIZATION

EMBROIDERY

Made in France, we are able to customize your upholstery with your own embroidered paint. The ability to customize frame colors, upholstery colors, marking... you can completely customize your equipment.

SADDLIERIES AND COLOR

The seats and cushions are entirely cut and hand-sewn in our upholstery workshop. We select the best manufacturers of natural or synthetic leathers to offer a wide range of colors and textures.

We place great importance on the quality of materials used in manufacturing and the details.
